## Easy Application

Quickly and easily look like you just stepped out of the salon every day.

BEFORE

BEFORE

### Step 1:

Use on dry, styled hair.

### Step 2:

Hold the XFusion bottle 2-3 inches above the area of concern and shake liberally or spray with the patented Spray Applicator.

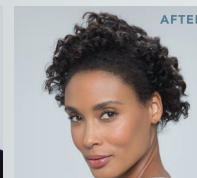

### Step 3:

Fill in front hairline or along the sides using the Spray Applicator & Hairline Optimizer.

AFTER

AFTER

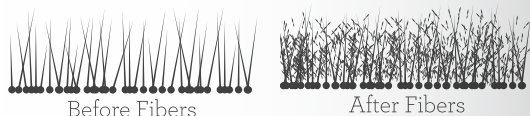

### Step 4:

Gently pat hair to disperse Keratin Hair Fibers. For added hold and shine, spray lightly with XFusion FiberHold Spray.

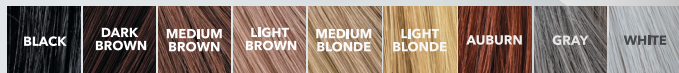

# XFusion Fibers are made in the USA of the highest grade of Keratin protein

Virtually identical to human hair and naturally magnetized with static energy, our fibers intertwine undetectably with your existing hair, making it look instantly thick and full.

Other fibers are derived from either plant based materials or synthetic sources that have none of the properties of natural hair. These other fibers lack the natural-looking texture to blend flawlessly into your hair and can fall out, clump, or shift during the day.

Available in  
3 sizes and 9 shades

## Precision tools ensure flawless, natural-looking results

### Patented Spray Applicator

The patented XFusion Spray Applicator is designed for precise application and allows for buildable coverage for even, natural-looking Fibers dispersion. It's great for the front or side hairline, especially when used with the Hairline Optimizer. It fits both 15g & 28g Fibers bottles.

\$20 MSRP

\$8 MSRP

### Hairline Optimizer

The Hairline Optimizer helps frame your face. Its irregular pattern helps the Fibers to disperse slightly unevenly, creating a perfectly natural hairline.

### FiberHold Spray

The FiberHold Spray gives even longer-lasting results and adds shine. This fine, quick dry mist is designed to further strengthen the bond between XFusion Keratin Hair Fibers and fine or thinning hair for extra durability.

\$12 MSRP
